**All students will be taking the computer based MCAS test (CBT).**

Please help your child prepare by ensuring they are well rested and have a good breakfast on those days. Please note that statewide MCAS policy states that cell phone calculators are NOT allowed. As is the rule on every day, students should not have their cell phone with them in class. If they are caught using their phone during an MCAS session (even if in the bathroom!), their scores are nullified. Thanks for helping us out with this.
